MANNINGTON GAME HERE TOMORROW

This Season Teams From Rival Schools Are Evenly Matched.

Two old rivals, and this season most evenly matched, will come together Friday afternoon at South Side park when the grid warriors from Mannington high invade the local territory and clash with Fairmont. Mannington and Fairmont this season have both made practically the same showing against teams which have been met by both schools, and fans who are following the game anticipate that the battle will be the most evenly matched of the season.

With the teams even on the matter of weight and experience, and with the old time rivalry that has always been in evidence between the Buffalo Creek boys and the local pigskin artists, a real battle is to be looked for.

A contest has also been arranged between the second teams of the two schools which will be of interest to fans while the big show is not being put on.

BULLDOG MAY COME STRONG

By FRED TURBYVILLE
N. E. A. Sports Writer.

It is always best to wait until ten days or a week before to form a real honest-to-goodness opinion of the merits of Yale and Harvard. It is always a little trick of the Crimson and Blue coaches to conceal the punch throughout most of the playing season.

This isn't the first season that a little fellow has been able to beat either Yale or Harvard. It isn't the first time, either, that Harvard on early season dope appeared to have it all over Yale. The Crimson looks much the best of the two teams right now.

Most of the big school teams around the country have a schedule that includes four or five real BIG games. Yale and Harvard plays many of these teams but they know only one BIG game and that is the one between themselves. If Harvard could whip Yale she would be willing to lose a few minor contests and to allow the little fellows to wallop her around the gridiron. Same for Yale.

That is why each team has a habit of holding back. There also is the great feeling stirring in the hearts of the athletes of the two squads just before they clash. This feeling results in pulling together a great team out of a squad of crumpies and men who do not look as good as the stars of old.

It was ever thus and if you don't believe it just read back in football history and see how many times the Yale and Harvard teams have shown poorly throughout the season only to get loose at the last moment and display wonderful form.

Yale is pointed for Harvard and Harvard for Yale. That is what they are thinking about in the two camps every day. They're enemies from away back and this year's situation is little changed from other years.

Dempsey still retains his crown at Net reports. Wilson keeps his job though sick. In Russia he wouldn't dare leave it for a day. Someone would have it before his train was out of sight.

Germany wasn't prepared for a "fight to the finish." Neither was Willard. They're now reducing belts from 20 to 40 inches. Hurry up with the League of Nations.

They want the U. S. A. to put the "top" in the league.

Without us it has nothing to stand on.

The Prince of Wales should see a real football game before returning to England. It sort of gives a stranger an idea as to what kind of young fellows we have over here.

A sink goes. Kentucky brewery because the bear was too near. He's probably an impulsive fellow and will be sorry in six months from now when even Kentucky will be dry.

Will Hoppe's scores look like something the Reds had just finished with.

If the "best team lost" a lot of champs were left in the billiard tourney.

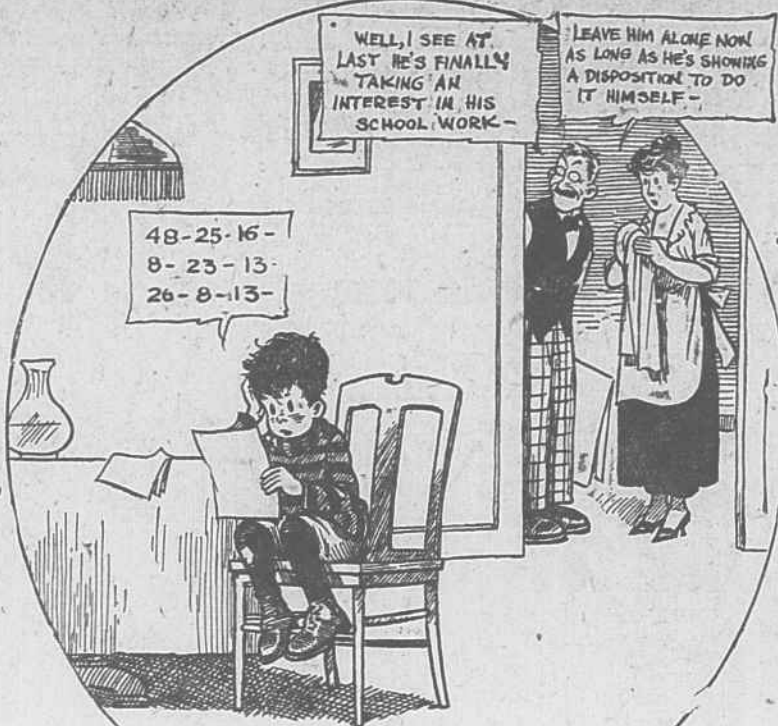

What Becomes of the Iron Ore? America's largest manufacturing industry is iron and steel. The pig iron recovered in smelting iron ore amounts to about 25 per cent of the raw materials. The equivalent of about 14 per cent is driven off by volatilization in the cooling of the coal; in the process of smelting a further 40 per cent escapes in gas fume and dust, and the remaining 21 per cent represents the slag.

THE GREAT AMERICAN HOME

MEMORIZING THE SIGNALS FOR THE FOOTBALL TEAM -

STATISTICALLY WVU IS VERY NEAR THE TOP

Captain Rogers Leads the County in Points Scored.

MORGANTOWN, Oct. 30—West Virginia will go into her game with Princeton at Princeton on Saturday second only to Pennsylvania University of all the leading Eastern towns, in scoring. The Mountaineers scored no less than 203 points in their five games and have been scored on in only one encounter, that with Pitt.

The next team to West Virginia in scoring is Harvard with 159 points and Lehigh with 145. Pennsylvania, who leads the pack has scored 239 points.

While West Virginia is second in team scoring her captain, Ira E. Rodgers, leads all the individual players in the country in the matter of touchdowns. He has made eleven touchdowns for 66 points and kicked twenty goals from touchdown for a grand total of 86 points. His nearest opponent Robertson of Dartmouth, has seven touchdowns, six goals from touchdown and one field goal for a total of 51 points.

The Mountaineers, of course, will have their hands full in holding their advantage point with Princeton, Rutgers and W. & J. to be met within the next thirty days.

Saturday West Virginia will meet Princeton at Princeton and in all probability will get a drubbing. Local fans expect it and the coaches expect it, too, of course, they are not making much noise about it and are preparing quietly to play the strongest possible defensive game.

West Virginia should go into the game with all her stars, Rodgers, Harrick, Bailey and the others in the best of physical condition and will give the Tiger a good game regardless of the score.

Metal Goggles for Doughboys. Shrapnel goggles are made of metal entirely, except a pad of rubber between them and the flesh for protection. The wearer sees through a slot in the front of his eyes. This is large enough for him to obtain a clear view of the surroundings but not large enough to permit of the passage of missiles.

REZNOR

Reflector Gas Heater
The most efficient and economical gas heater made. No pipes, no venting, no pair of need replacing. Through the bottom where it warms the floors first.

Better Record for Bengal.

In the province of Bengal, India, 26,436 animals died of contagious disease during the year 1917-18, as against 8415 in the previous year.

From One End to the Other.

Old felt hats which are too far gone to be worked over into hats again are now utilized for bedroom slippers.

Rails Across Australia.

It is now possible to make a continuous railroad journey from Perth, Western Australia to Brisbane, Queensland, a distance of 3895 miles.

Electric Lights Save Rice Crop.

A Los Angeles company recently organized flood lighting projection for lighting rice field at night to keep the ducks and geese away.

THE SECRET IS OUT

Where she got that clear—transparent—skin with the suggestion of rose petals just tinting her cheeks—her bright eyes and the vivaciousness and attractiveness of youth regained. The secret of good health and beauty is keeping clean—inside as well as outside.

Sluggishness of the intestinal tract is responsible for nine-tenths of the diseases—notably headache. The sallow complexion, the coated tongue, dark circles under eyes—indigestion—depression—fear—are all signs of danger and of the poisoning caused by constipation. Everyone should guard against putrefaction, the stoppage of the bowels of the colon. Everyone should occasionally take castor oil, or, what is better, a pleasant pellet made up of May-apple leaves of aloe, root of jalap, rolled into tiny, sugar-coated pellets and long sold as Dr. Pierce's Pleasant Pellets.

After influenza or colds the kidneys and bladder are often affected—called "nephritis," or inflammation of the kidneys.

This is the red-flag of danger—better be wise and check the further inroads of kidney disease by obtaining at the drug store that wonderful new discovery of Dr. Pierce's, known as "Anuric" (anti-uric-acid), because Anuric expels the uric-acid poison from the body and cures those pains, such as backache, rheumatism in muscles and joints.

Naturally when the kidneys are deranged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists; or under the eyes in bag-like forms.

Doctor Pierce's Anuric is many times more potent than lithia and often eliminates uric acid as hot tea melts sugar. Send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., ten cents for trial package.

Take Early Interest in National Game

Two youngsters not much older than ten and seven were brought to the mayor by an officer for shooting dice in the street next to Lipson's Pawn. The children had about forty the game. They were reprimanded by the mayor and told to do it again. They were sent a trip to the Reform school, if they did not go to school and behave. "We'll confiscate your outfit," said the mayor, retaining two dice. The boys went out grinning.

Fannie Wright was fined \$12 for being drunk and disorderly last evening on Jackson street. She was brought to the city jail shouting mad. She said this morning she wasn't bothering anyone but there was a certain colored man she had a notion to bother a little later. "All right," said Chief Moran. "We've got plenty of room here at jail." Fannie went to her room in company with Officer Kern where she said she had \$12 to pay her fine.

Will Tell of Habits and Life of French

Captain Hollo J. Conley will address the members of Mt. City Lodge, K. of P. this evening in the K. of P. hall on Main street on the manners, life and customs of the French people. Captain Conley recently returned from overseas service and will have some interesting tales to relate of the life of the French people. The business session of the lodge will begin at 7:30 o'clock and Capt. Conley will begin his address at eight o'clock and will conclude in time for those who wish to attend the Elks' dance.

Stronger Windmills Wanted. Windmills are not used to any great extent in Mexico because the "norther" blow them over. It is thought that a windmill of low construction with a wide base would overcome this and might prove very popular.

Demand for South African Grass. As the demand for kikuyu grass in

South Africa is increasing the Union government has issued a pamphlet dealing with its characteristics and advantages as a cattle fodder.

Is Papa Twice.

Mr. and Mrs. Roy W. Cooper, of "Gray Hall," Irwin, Pa., announce the birth of twin babies, a boy and girl, companions to two little daughters. Mother and babies are getting along nicely. Mrs. Cooper was Miss Elizabeth Carothers, daughter of the late John M. and Mrs. Carothers, of Greensburg, Pa. Mr. Carothers was formerly division engineer of the West Virginia operations of the Jamison Coal and Coke Company. They formerly lived in Fairmont.

Collecting Tax—Deputy Revenue Collector J. L. Blocker remained at the court house today collecting taxes on ice cream and soft drinks for this county. In August Collector Blocker reported he collected about \$7,000 from ice cream and soft drink merchants. The monthly income to the government in West Virginia is somewhere around \$150,000.

PRINCE ALBERT

the national joy smoke

NEVER was such right-handed-two-fisted smokejoy as you puff out of a jimmy pipe packed with Prince Albert. That's because P. A. has the quality!

You can't fool your taste apparatus any more than you can get five aces out of a family deck! So, when you hit Prince Albert, coming and going, and get up half an hour earlier just to start stoking your pipe or rolling cigarettes, you know you've got the big prize on the end of your line!

Prince Albert's quality alone puts it in a class of its own, but when you figure that P. A. is made by our exclusive patented process that cuts out bite and parch—well—you feel like getting a flock of dictionaries to find enough words to express your happy days sentiments!

Toppy red bags, tidy red tins, handsome pound and half-pound tin humidors—and that classy, practical pound crystal glass humidor with sponge moisture top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

AT HARTLEYS

Friday and Saturday
Men's Fall and
Winter Shoes
\$10.00

These Shoes are quite unusual at ten dollars, far from commonplace in quality and style, and made with all the care and precision that would be expected in shoes at higher cost.

Smartly styled of Brown Calfskin, of soft, flexible leather, yet sturdy enough for winter weather. When you have visited the store and seen this offering you will agree that you have not recently seen as attractive shoes of as good quality for ten dollars.

Hartley's

Commercial conditions in the United States and throughout the world are still far from normal. Your Telephone Company and other progressive organizations are steadily and surely getting back to pre-war standards—working to that end with the energies used during the past couple of years in helping to win the war.

It cannot be done in a day. Additional equipment is being placed; our 691 soldiers and sailors are getting back on the job; reconstruction plans of all kinds are being worked out. And it all takes time. Meanwhile, we ask your consideration and co-operation.
